Building sustainability in-house skills!

Fast Track Sustainability!

The era of companies not paying closer attention to sustainability challenges in their place of business and in their supply chains is coming to an end. Today, companies are being held accountable for their social and environmental impacts in light of the increasing global regulatory drive combined with growing stakeholder expectations.

Regulations, sustainability challenges, and customer demands are forcing a shift on how business is being done.

Is your business ready?

Gaining sustainability knowledge and a better understanding of what is needed to be done is the first step to be legally compliant in light of the ever-increasing sustainability legal landscape, adapting to the dynamics of the increasing sustainability requirements, operating your business in a socially and environmentally responsible manner.

Fast Track Sustainability!

training courses:

Speed up your sustainability knowledge!

Fast Track Sustainability! **benefits**

- **Fast Track Sustainability!** are sustainability management training courses providing fundamental sustainability knowledge for your staff to be applied in their daily work.
- **Fast Track Sustainability!** sustainability management training courses will help your organisation to understand the global regulatory sustainability framework that will impact on your business and your supply chain.

CSI Partner Locations

We are where it matters!

With our headquarters located in Hong Kong, we have immediate access to the major production centres and procurement markets in China (Pearl River Delta) and neighbouring South Chinese cities.

Founded on local practical experience, qualified cross-cultural sustainability experts, and in-depth knowledge about sustainable supply chains, we develop and implement pragmatic solutions for the sustainability decisions for the products sourced in Asia for our customers.

Our Team

Karl Borgschulze
Managing Director

Karl Borgschulze draws on more than 30 years of experience and an extensive network in Asia, Europe, and the world to design sustainable sourcing solutions for the global manufacturing industry.

Josef Lorenz
Consultant

Josef is a logistics enthusiast who has been in the supply chain business for 25-plus years. Living in Singapore and Hong Kong for more than 18 years, the APAC region has become his playground by supporting customers from India up to New Zealand in supply chain challenges.

We have teams in Hong Kong, Dhaka, Lahore, Karachi, Berlin, Sydney, and Singapore.
